**Family/Household** means a group of people who may or may not be related and who do not live in an institution or a boarding house, but who are living as one economic group. Students who are temporarily away at school should be counted as members of the family; however, students who are full-time residents of an institution are considered a family or one.

Income means income before deductions for income taxes, employee's social security taxes, insurance premiums, charitable contributions, bonds, etc. It includes the following:

- Monetary compensation for services, including wages, salary, commissions, or fees
- Net income from non-farm self-employment
- Net income from farm self-employment
- Social security
- Dividends or interest on savings or bonds or income from estates or trusts
- Net rental income
- Public assistance or welfare payments
- Unemployment compensation
- Government civilian employee or military retirement or pensions or veterans payments
- Private pensions or annuities
- Alimony or child support payments
- Regular contributions from persons not living in the household
- Net royalties
- Other cash income. Other cash income would include cash amounts received or withdrawn from any source including savings, investments, trust accounts, and other resources which would be available to pay the price of a child's meal.

**Income** does not include any income or benefits received under any Federal program, which are excluded from consideration as income by any legislative prohibition.
